\$2.00 a Year; 5c a Copy

Jim Nielson is a patient in the Drumheller hospital.

A square dance was held at Hesketh Friday night and everyone had a wonderful time.

Miss Neva White of Galt hospital, Lethbridge was visiting her parents over the weekend.

BORN—To Mr. and Mrs. Jack Appleyard, March 17th at Carbon, a daughter, Theresa Marie.

BORN—To Mr. and Mrs. Albert Bramley March 11th in the Drumheller hospital, a daughter, Carol Jean.

Mr. and Mrs. Ed Foster and Jimmy motored to Coleman where Jimmy was playing in the playoffs with Drumheller Juvenile Miners. Drumheller won the game 2-0.

Pope Lease W.I. held its regular meeting at the home of Mrs. Andrews with 14 members present. The tea prize was won by Mrs. Harry Church. Miss Shatz, district home economist, spoke on the making of School and Men's Field Lunches.

Three Carbon rinks journeyed to Acme Tuesday night to challenge for the Tolton Cup and were beaten by a 40-23 score. Individual scores were: Rosie Reddekopp 14, Joe Appleyard 9; Reg Bates 11, Ted Schmidt 9; Art Bates 15, Jock Reid 5.

FOR SALE—Small Farm at Carbon. 20 acres. Good Buildings. —Royal Hay, phone R403.

Ice Carnival Mixed Spiel

The fifth annual winter carnival of the Carbon Lions Club was held March 7th. Miss Sylvia Garrett, daughter of Mr. and Mrs. Richard Garrett was crowned "Queen of the Carnival. Sylvia was sponsored by the Carbon F.U.A. Her "Ladies-in-waiting" were Miss Myrna Schell, sponsored by the Students' Union; Miss Linda Chesworth, sponsored by the Carbon Junior Red Cross; and Miss Corinne Fuller, sponsored by the Hesketh Community Association.

The "Queen" was crowned by C.H. Nash, president of the Lions Club. Gaily-painted ice, a stage complete with footlights, unusual costumes, ranging from tiny two-months-old rabbits to pirates, combined to make one of the most successful carnivals ever held in Carbon. Morris Switzer acted as Master of Ceremonies. Members of the Lions Club, Art Schefflemier, Ed Ohlhauser, Merle Ohlhauser, Earl Ohlhauser, and Roman Ohlhauser entertained on stage with impersonations, while Roy Karay and Wray Wright gave a trick shooting act.

Mr. and Mrs. Ben Fox won the Queens Competition prize, a pair of blankets, Caroline Neher won the door prize, an electric percolator. The Drexler, Gimbel and Kary outfits won prizes in the chuck wagon races.

Costume prizes awarded were as follows:

PRE-SCHOOL CHILDREN

Best dresser girl: Jody Appleyard. Best dressed boy: Lorne Levins.

Most original costume: Shirley Gimbel. Best Comic: Gwen Fox.

SCHOOL CHILDREN

Best dressed girl: Lorraine Holmes. Best dressed boy: Dale Gimbel.

The third annual mixed bonspiel of the Carbon Curling Club again proved to be the most popular event of the curling season with an entry of 28 rinks competing in the three events with winners as follows:

FIRST EVENT

1. Jack Barber.
2. Norman Nash.
3. Leonard Poxon.
4. Stanley Torrance.

SECOND EVENT

1. Francis Poxon.
2. Leonard Brown.
3. S. J. Garrett.
4. Morris Switzer rink, skipped by Gordon Hunt.

SPECIAL COMPETITION

1. S.J. Cannings.
2. John Diede.
3. Ted Schmidt.
4. Al Barnes.

Don't forget the Legion Whist Drive on Friday, March 28th.

Most Original costume: Diane Bushby. Best comic: Susan Hoivik.

Best couple: Shirley Schuler and Geraldine Mortimer.

Miss Shirley Flaming and Bill Pearn, a fancy skating team from Stettler, gave an exhibition

Farmers' 'Spiel Cards of Thanks

Friendly family rivalry was featured in the Farmers' Bonspiel as wives and daughters curled with the men. Joe Appleyard skipped his rink to a first event victory over his father-in-law, Leo Brown, with the result not known until the last rock was thrown.

Playing with Mr. Brown were his son, Jack; Mrs. Jack Brown and Arnold Larsen; while John Schmidt, Vergil Rempfer and Mrs. Joe Appleyard were teammates of Mr. Appleyard.

The John Reid rink was third in the first event and the Gottlieb rink won fourth prize.

John Reid's rink won the second event, with Bud Anderson second, Keith Halstead third and the Al Barnes rink fourth.

Deve Gieck's rink won the third event, defeating Russell Snell in the final, with Cynthia Barnes third and fourth prize going to Ed Cannings.

Cynthia Barnes and her high school girls rink of Joanne Ohlhauser, Darlene Hector and Audrey Martin provided the highlight of the bonspiel, defeating some of the best men curling in the bonspiel to the delight of a large gallery. John Reid's rink won the grand aggregate, and Keith Halstead won the prize for the largest end, a seven-ender.

On behalf of myself and the members of the Anglican W.A., I wish to thank all the ladies who so kindly cooked, donated and assisted us while catering to the Mixed and Farmers' Bonspiels, also the men who so kindly hauled water and delivered and collected food for us and Mr. Schacher for the use of the stoves.

Mrs. H. Hunt, Pres.

FOR SALE—No. 1 Couch Free Brome Seed. 19c a lb., bags included. 5 pct. discount on 1000 lb. lots. Prices on other grass seeds on request. Sold at Linden Machine Works. Phone 2120, Acme. Linden, Alta.

Will pay \$1.00 for any old Elgin or Waltham Watch regardless of condition.

GOOD SEED for BETTER CROPS

You wouldn't use a Scrub Bull.
Why use Scrub Seed Grain?
The Bull is half the herd.
But seed can be all the crop.

Registered and Certified seed has a pedigree. A seed plot sown to Registered seed can mean good seed for the whole farm next year.

For MALTING BARLEY pure seed is a MUST Olli and Montcalm are the recommended varieties. Order NOW from your elevator agent or from any seed handling organization.

Veterans On The Land

DURING THE LAST WAR many bright hopes were entertained for the time when the world would again be at peace. All these hopes have not been realized, but progress has been made in some things, and from these encouragement can be drawn for the future. One of the phases of post-war life in Canada which has been both of interest and of great importance has been the re-establishment of war veterans in civilian life. While in any adjustment in which so many are involved there could not be entire success, it has been encouraging to see the large number of veterans who have been successful in the work which they have undertaken after leaving the services.

Many Settle In The West

Government assistance for those who wished to finish educational courses started before the war, or to learn a new trade or profession, made it possible for many to fit themselves for work in their chosen field. For others, the Veterans Land Act provided opportunities to establish homes of their own, with holdings of land varying with their requirements. A recent report showed that 54,809 farms are being operated under the Veterans Land Act Administration and that more than half of these are located in the four western provinces. Alberta has the largest number, with 8,559 veteran's farms, representing an investment of \$37,000,000. In Manitoba there are 5,758 veterans on farms valued at \$27,000,000, while Saskatchewan has 8,117, the investment there totalling \$34,000,000. British Columbia has 6,510 veterans holding land valued at \$30,000,000.

An Indication Of Progress

Officials of the Veterans Land Act Administration report that very few of the veterans have failed in any way to live up to their obligations in paying for their land and there has been general satisfaction over the success of the undertaking. It is apparent that the veterans have profited by the opportunities which were offered to them after the war, and in so doing have benefitted not only themselves, but the communities in which they live. Those who remember the period which followed the First World War will recall that less thought was given then to the re-establishment of the war veterans and that many of them had difficulty in adjusting to civilian life. Although, as was observed before, no plan of such proportions can be entirely successful, it is a sign of progress that an effort was made to meet the needs of those coming out of the services in the last war, and that so many have been successful on the land, or in the trades or professions which they undertook to learn.

New Variety Of Malting Barley Proving Superior To O.A.C. 21

WINNIPEG.—U.M. 43-1020, new malting barley variety developed at the University of Manitoba, has already proved superior to O.A.C. 21, present standard for the malting industry, Prof. S. B. Helgason of the University's plant science department. Field tests have been particularly promising. Prof. Helgason reported, and malting tests on a plant scale will be made this year.

There is little doubt, he said, that it will prove acceptable and seed is being increased in readiness for distribution in 1953.

If the new variety is licensed then Prof. Helgason estimated that about 2,000 bushels would be available for prairie plantings.

He spoke to the annual meeting of the Canadian Barley and Oil Seeds conference at the Fort Garry hotel. "At present barley and fertilizer prices, use of ammonium phosphate

fertilizers is good business," Prof. R. A. Hedlin, University of Manitoba, said.

Fallow-field tests in the province revealed that application of 40 pounds an acre of 11-48-0 boosted barley yields by 14 bushels at a cost of only \$2.10.

On stubble, he added, 16-20-0 was applied at 96 pounds per acre. Cost was about \$4; yield increase was 13.7 bushels.

S. A. Wells, of the dominion laboratory of cereal breeding, Lethbridge, Alta., emphasized the importance of developing barley varieties for irrigated acreage in the southern part of that province.

Land "under the ditch" in that area now totals 618,000 acres, and will be almost doubled, he estimated, when projects now underway are completed. "Production of malt barley in these areas should not be overlooked," Mr. Wells concluded.

Eleven-year tests on grades 2 and 3 C.W. six-row barley show improved quality in that period, Dr. W. O. S. Meredith, research scientist, board of grain commissioners, Winnipeg, reported. He credited the improvement to elimination of less desirable varieties.

A. T. Elders, Canada Malting company, Winnipeg, advised barley growers not to rely on fall germination tests. Spring tests, he said, would be a more reliable indicator.

Earlier seeding at depths shallow enough to just reach damp soil, would produce heaviest yields, he said. Tests showed barley yields became progressively smaller as seeding depths were increased.

UNIQUE MALADY

A rare nervous state called "nyctophonia" interferes with a person's speech during the daylight hours but does not affect his vocal powers at night.

Emily Kimbrough Compares Blue Bonnet — It's Her Favorite!

Accept an invitation from Emily Kimbrough. Compare BLUE BONNET Margarine with any spread at any price. Like the author and lecturer, you'll love BLUE BONNET's fresh, sweet flavor! Rich nutrition! Real economy!

LINIMENT

By The Pound, He's The Winner

Big enough to put a saddle on is this Great Dane, entered in the Westminster Kennel Club dog show in New York. Owner is Maggie Galda of Syosset, L.I., who nearly collapses when her pet decides to lean on her for support.—Central Press Canadian.

Funny and Otherwise

Policeman to lady driver, who was parked by a water plug: "Lady, can't you read?" Lady: "Why, certainly. It says fine for parking."

"Darling, look at that lovely diamond ring."

"Yes, dear, if ever I have to refuse you a diamond ring it will be one like that."

Wife: "All right, my dear husband, I'll admit that I spend money. But just name one other extravagance!"

Johnson returned to his native town after some years abroad.

"Has he changed much?" asked one who had not yet seen him.

"No, but he thinks he has."

"In what way?"

"He persists in talking about what a fool he used to be!"

Science corrects the old creeds, sweeps away, with every new perception, our infantile catechisms, and necessitates a faith commensurate with the grander orbits and universal laws which it discloses.—Ralph W. Emerson.

One of the best automobile insurance policies is a Sunday afternoon nap.

Lady (at party): "Where's that pretty maid who was passing out cocktails a while ago?"

Hostess: "Oh, are you looking for a drink?"

Lady: "No. I'm looking for my husband."

The chemist was getting exasperated. He had been explaining and pricing dozens of articles to the shopper, who really didn't want to buy anything at all.

Finally, she picked up a bottle.

"Is this pest exterminator reliable?" she asked. "How is it applied?"

"You take a tablespoonful every half hour, ma'am," the chemist replied with fustian emphasis.

No more questions were asked.

"Darling," said Mr. Newlywed during tea, "did you make these cakes all by yourself?"

"Yes, of course, sweetheart," she replied. "Were you going to tell me they are like those your mother used to make?"

"As a matter of fact, I was. And—I don't think I mentioned it to you before—that's why Dad left her!"

REAL HELP FOR Your Itching Piles OR NO COST

If Hem-Roid, the internal pile treatment, does not quickly stop the itching soreness and burning pain of your piles—it costs you nothing.

Get a package of Hem-Roid at any drug store and use as directed. You will be amazed at how quickly your pile trouble fades away. Only \$1.59 for the big 60 tablet package. If you are not 100% pleased after using Hem-Roid 2 or 3 days, as a test, ask for your money back. Refund guaranteed by all drug stores.

Brandon College Receives \$18,000

BRANDON, Man. — Brandon College received a cheque for \$18,247.75 as its share of the federal assistance to universities. About \$383,000 was allocated to the province of Manitoba. It was stated here that the amount received was a little larger than expected, working out at about \$110 per student.

Sask. Highest In Value Of Crop Production

OTTAWA.—Saskatchewan led all Canadian provinces in the value of field crop production in 1951, according to Dominion bureau of statistics figures released.

Gross estimated value, based on prices received by farmers for August-January period, for 1951 was \$596,404,000. This compared with \$541,833,000 in 1950, \$425,403,000 in 1949 and \$458,968,000 in 1948.

Estimated value for field crops for all Canada in 1951 was \$1,977,105,000, up from the previous record of \$1,854,500,000 the year before.

All provinces except Quebec and Manitoba registered gains over the previous year.

Other provinces with their estimated crop values were: Ontario, \$452,489,000; Alberta, \$415,405,000; Quebec, \$197,298,000; Manitoba, \$181,161,000; New Brunswick, \$44,453,000; B.C., \$37,512,000; P.E.I., \$26,704,000; Nova Scotia, \$25,679,000.

MANY MATERIALS NEEDED

Construction of a blast furnace with an annual capacity of 450,045 tons requires 3,514 tons of rolled and forged steel, 2,916 tons of concrete and 3,050,000 refractory bricks among other materials.

SLEEP TO-NITE

SEDICIN tablets taken according to directions is a safe way to induce sleep or quiet the nerves when tense. \$1.00 Drug Stores only or Sedicin, Toronto 2.

Success Tip—Bake it with MAGIC!

DATE-ORANGE PUDDING

Combine in a greased casserole (6-cup size) 1/2 c. corn syrup, 1 tbs. 1/2 c. orange juice. Mix and sift once, then sift into a bowl, 1 1/2 c. once-sifted pastry flour (or 1 1/2 c. once-sifted hard-wheat flour), 2 1/2 tps. Magic Baking Powder, 1/2 tsp. salt and 1/4 c. fine granulated sugar. Mix in 1/2 c. corn flakes, slightly crushed, and 1/2 c. cut-up pitted dates. Combine 1 well-beaten egg, 1/2 c. milk, 1/2 tsp. vanilla and 3 tbs. shortening, melted. Make a well in dry ingredients and add liquids; mix lightly. Turn into prepared dish. Bake in moderately hot oven, 375°, about 40 minutes. Serve warm, with pouring cream. Yield—6 servings.

How Scott's Emulsion Helps CHILDREN GROW STRONG, HUSKY!

More than just a tonic.

CHILDREN THRIVE on Scott's Emulsion. When they get run down, catch colds or get sick—see what a difference it makes when you give them Scott's Emulsion. It contains natural A & D Vitamins in natural oil—real "gold from the sea." Helps them maintain resistance. Helps them build strong bones, sound teeth, a husky body! Helps them grow into fine, sturdy, lively children you're proud of! Try Scott's and see!

SCOTT'S EMULSION IS RECOMMENDED BECAUSE 1. It contains natural A & D Vitamins in natural oil—plus added minerals. 2. Easy to take, economical. 3. Four times easier to digest than plain cod liver oil, because of exclusive process. 4. Helps children build strong bones, sound teeth, a sturdy frame.

Today—sure—get Scott's at your favourite store.

Prince of Wales-To-Be Faces Rigid Upbringing

By M. E. BYRNE
(CPC Correspondent)

On the very young shoulders of Prince Charles of Edinburgh—better known as Bonnie Prince Charlie—some day soon a burden will be laid. He will become Prince of Wales and with the investiture of that title will begin an increasing number of responsibilities.

As Prince of Wales, the little boy now only three years old will stand in the full glare of the world's limelight as heir apparent to the British throne so recently ascended by his mother, Queen Elizabeth II.

By tradition a Prince of Wales is a sort of unofficial "ambassador" of the British crown to the world at large. This job, incidentally, was performed so ably by the last Prince of Wales, Charles' great-uncle Edward, now Duke of Windsor, that he became known as "Britain's best salesman." After reigning less than a year Edward abdicated to marry the present Duchess of Windsor.

From this date forward Charles' education and rearing will be different than that of any other little boy in the world. His education and his conduct will be moulded to fit him for the unique job which some day should be his.

There'll be no playing hockey and no neglect of "home work" by Charles. Never, until his formal education is completed, will he be out from under the eyes of strict tutors.

The title "Prince of Wales" is unique in history. It has been borne by many, but not all, eldest sons of English kings. And not all Princes of Wales have become king, some not even being eligible.

The first Prince of Wales was Llywelyn (or Llewelyn) ap Gruffydd, a Welsh prince known to his subjects by the odd name of Llywelyn the Last. He took the title "Prince of Wales" in 1267 and was recognized as such in a treaty made by warring Welsh chieftains.

An early English Prince of Wales was Edward, the Black Prince, one of the heroic figures of the Middle Ages, the brilliant captain at the Battles of Crecy and Poitiers. The

EDWARD THE BLACK PRINCE
He never became king
—Central Press Canadian Photos.

story is that King Edward III gave his son the title in order to give the rebellious Welsh a prince of their own.

To celebrate the Black Prince's attainment of manhood, Edward III initiated the famous Order of the Garter. Legend gives a fanciful origin of the knightly Order's name.

As one of the ladies of the court was dancing she lost a garter. To confound the grinning courtiers the king picked up the circlet of cloth, held it aloft and proclaimed: "Honi soit qui mal y pense"—"Shamed be he who thinks evil of it," adding he would cause the garter to be held in such high esteem that knights would strive for the right to wear one. A Prince of Wales is always made a member of the Order.

A most unfortunate Prince of Wales was Edward V, young son of Edward IV after whose death the

PR. CHARLES OF EDINBURGH
Destined to reign

PRINCE EDWARD IN 1910
At time of his investiture

young prince and his little brother were confined in the Tower of London and there murdered at the behest, it has long been suspected, of Richard III, their uncle, who seized the throne.

However, that was long ago and are now but words in the yellowing pages of history. Since his time there have been many Princes of Wales, most of whom lived happy, contented lives, held in great esteem by the British peoples.

Now Great Britain soon will have another Prince of Wales and once again will appear the traditional three plumes of his high office. And once again the world will see the motto of all Princes of Wales, which is "Ich dien", which means "I serve". Not for a moment will little Charles of Edinburgh be allowed to forget the full meaning of those two fine words.

Figures Say So

Canada Slowly Becoming A Women's Land

OTTAWA.—Canada is slowly becoming a women's country. In Quebec, for instance, there now are more females than males.

The bureau of statistics, making a further analysis of the 1951 census, reported that the number of females in Canada has climbed by 1,314,437 in the last 10 years. Men boosted their total by only 1,153,873.

Canada's population is 14,009,429, compared with 10,542,119 in 1941.

In Quebec, the females have assumed command. There are 2,033,554 there, compared with 2,022,127 males.

For every 100 females in 1941, there were 105 males. Now it's going to be a little tougher to get a man. The ratio is 102.4 males to every 100 females.

Even in Alberta, the traditional stronghold of men, males are ahead by only 44,883 compared with 56,747 in 1941.

Here are the provincial numbers of males and females, respectively, with 1941 figures in brackets:

Prince Edward Island: 50,218—48,211 (49,819); Nova Scotia: 324,955—317,629 (296,044—281,918); New Brunswick: 259,211—256,486 (234,097—223,304); Quebec: 2,022,127—2,033,554 (1,672,982—1,658,900); Ontario: 2,314,170—2,283,372 (1,921,201—1,866,454); Manitoba: 394,818—381,723 (378,079—351,665); Saskatchewan: 434,568—397,160 (477,563—418,429); Alberta: 492,192—447,309 (426,458—369,711); British Columbia: 596,961—568,249 (435,031—382,830); Yukon and Northwest Territories: 14,510—10,590 (9,853—7,089); Newfoundland: 185,143—176,273 (figures for 1941 not available).

Victoria Dentist, 91, Still Practices

VICTORIA, B.C.—Entries are open for the honor of being Canada's oldest practising dentist.

Dr. Arthur J. Garesche, 91, of this city has put in 70 years with drill and forceps and is still going strong.

His claim to the record was disclosed recently after it was reported that Dr. W. T. McGorman, 89, of Port Arthur, is the oldest in Ontario. Dr. McGorman has been practising for 59 years after graduating in 1893.

Dr. Garesche, who will be 92 next October, has ditched old-fashioned equipment and keeps pace with modern development.

"The greatest punishment a man can have is to stop work," he said. "I won't retire as long as I can work."

BLIND MAN'S INTUITION

MUNCIE, Ind. — Fred H. Coats didn't realize he was driving the wrong way on a one-way street until his blind passenger told him.

Coats said he and his passenger, Mario Pieroni, a former city judge, had been busy talking, but Pieroni sensed that they'd gone beyond the intersection where two-way traffic stops.

BREITHAUPT BECOMES LIEUTENANT-GOVERNOR — Louis Orville Breithaupt, Kitchener, is sworn in as lieutenant-governor of Ontario. Death of the King caused the Ontario government to keep the formalities simple.—Central Press Canadian.

South's aggressive overcall was bad policy on the type of hand where it usually pays to sit back. East's opening One Heart appeared to improve South's hand, so he bid One No-Trump.

With 14 points only he was below strength and might be held to some four tricks if North's hand were worthless. It was wiser to remain silent and hope that the vulnerable opponents would get out of their depth, while game prospects for his own side were remote once North had passed as dealer. In practice his One No-Trump was doubted by West, and North rescued into Two Spades. West again doubled and South went back to Two No-Trumps. West doubled once more and led ♠ 3. South losing 500 points in a doubtful cause—there is no game for East-West.

Polio Victim Becomes Scout

WINNIPEG. — A 13-year-old polio victim paralyzed in all four limbs is one of the happiest patients in a children's hospital here.

Mike Szadiak of The Pas, Man., recently was sworn in as a member of the 37th troop of Boy Scouts at a special ceremony at the hospital. Before the ceremony, hospital nurses and internes presented him with a Boy Scout uniform.

Mike has been a patient at the hospital since Sept. 22 when a Flin Flon service club made arrangements to have him flown from The Pas.

Boy Scouts began visiting him after the acute stages of the disease had passed. At least two Scouts went to see him each day. Instruction they gave him in operating a Morse code buzzer has helped him regain the use of his fingers.

GEMS OF THOUGHT

SCIENCE

The person who thinks there can be any real conflict between science and religion must be either very young in science or very ignorant in religion.—Prof. Philip Henry.

To know that what is impenetrable to us really exists, manifesting itself as the highest wisdom and the most radiant beauty which our dull faculties can comprehend only in their most primitive forms — this knowledge, this feeling, is at the center of true religiousness.—Albert Einstein.

All true Science represents a moral and spiritual force, which holds the earth in its orbit. This force is Spirit, that can "bind the sweet influences of the Pleiades," and "loose the bands of Orion."—Mary Baker Eddy.

Every great scientific truth goes through three stages. First, people say it conflicts with the Bible. Next they say it had been discovered before. Lastly, they say they always believed it.—Jean Louis Agassiz.

When man seized the loadstone of science the loadstar of superstition vanished in the clouds.—William R. Alger.

HERE'S HEALTH

Joe to ski
had never learned
But to WHIZZ down hills
he yearned.
He tried it once —
none deterred him.
Sad to say they've
just interred him.

On The Side : - By - E. V. Durling

Next to inebrated drivers the worst menace to highway safety are people who fear they will be late for a date, an appointment, the beginning of the picture or the first race. That brilliant versifier, A. P. Herbert, discusses this type of wild driver in a poem from which the following is an excerpt:

"Thou shalt be punctual." But better still
An older ordinance, "Thou shalt not kill."
Be late — it matters not, but be alive,
Start earlier, go slower, and survive.

At Sweet Sixteen

When Lady Godiva took that ride down the main stem of Coventry, in the interest of getting a reduction in taxes, she was about 16 years old. Annually, Coventry stages a replica of that ride, with a different female portraying Godiva each time. Last year there was a world-wide contest to select a Lady Godiva. Sally Rand, Lili St. Cyr and Evelyn West, "The Hubba Hubba" girl, were among the disappointed contestants.

Churchill Breakfasts Alone

Do you have breakfast with your wife? Winston Churchill believes if a man is to preserve his health and marriage he should always have breakfast alone when at home . . . Of course, you know the Italians taught the French how to cook. They also taught the British how to eat. The British ate with their fingers until 1608, at which time the Italians introduced forks to England and showed the natives how to use them . . . It has been said: "The greatest tribute a woman can pay a man is to enjoy working for him." How are you getting along with your secretary?

Setting Housewives' Rate

How many hours a week is a married woman with three children required to work to keep her house running smoothly? That is, of course, a woman who does all her own work. Is seventy-seven hours a week about right? Or do you know women who can do it in less? Incidentally, a woman, who found out she was not legally married to the man she believed to be her husband, sued him for salary for the housework she had done while they were living together. She fixed her pay at three dollars a day. That is far under the scale. Where can anybody be hired to do housework for that wage? As I understand it, the minimum wage for domestic services is now one dollar an hour.

Brown-Eyed Turns Blue

Some men of science are experimenting to produce a chemical preparation that will enable a woman to change the color of her eyes at will. Combining this with an effective hair coloring preparation, a blue-eyed brunette will be able to become a green-eyed red-head overnight. And then the next night she can switch to being a brown-eyed honey blonde. Some fun, what?

An Interesting Law

At one time in Greece a woman could be charged with not being as good-looking as she might be if she took better care of her appearance. She was brought before a tribunal and fined if found guilty. An interesting bit of legislation. Wouldn't be possible to pass a law like that now, of course. Still, a group of women could organize for the purpose of appearance improvement and fine any member who wasn't trying. With all the artificial aids to beauty available these days, any woman who isn't a good looker, and appears at least 10 years older than she is, has herself to blame.

ALEXANDER BIDS GOODBYE TO OLD FRIENDS—In one of the last ceremonies in which Viscount Alexander participated before leaving Canada, he found himself the recipient, instead of the bestower, of an honor. Air Marshal Curtis, (right), chief of the air staff, presented the former governor-general with R.C.A.F. wings. Alexander is credited with 700 hours flying with the R.C.A.F.—Central Press Canadian.

WHICH TWIN CARRIED A GUN? — Accused of robbing a travel agency operator, Anthony Chirieleison, (right), was awarded a mistrial in Kings county court, Brooklyn, N.Y., after the chief witness was unable to tell whether it was Anthony or his twin brother, John, shown with him, who pulled the alleged stick-up. Even court attendants failed to tell the two apart. When Anthony was remanded to jail after failure to post \$25,000 fine, guards snapped handcuffs on John before realizing they had the wrong man.—Central Press Canadian.

PREVIEW OF CANADIAN JET TRAVEL—This seven-foot, nine-inch model of the new jetliners, to go into service on Canadian Airlines trans-Pacific route, will be shown in Montreal, Winnipeg, Toronto, Vancouver and Honolulu. The model, costing \$15,000, shows prospective travellers exactly what the planes will be like. The jet service is expected to start this year.—Central Press Canadian.

PUT DEMOCRACY TO A TEST—Residents of south San Francisco protested when Sin Sheng, former intelligence officer with the Chinese Nationalist army made his home there. So Sheng, saying it would be a test of democracy, asked that the residents of the area take a vote on whether or not they objected to himself, his wife and child. The vote was 174 against his presence, 28 approving and 14 having no opinion. So Sheng decided to move. But his faith in democracy was renewed when protests of indignation came from all sides and many homes were offered, principally by veterans of the Korea fighting.—Central Press Canadian.

UNDER A TRI-NATION PLAN which will help this country balance her military purchases in the United States, Canada is going to build F-86 Sabre jet fighters for the U.S. Air Force as well as for the Royal Air Force and R.C.A.F. The contract said to involve millions of dollars, will be filled at the plant of Canadair in Montreal. Already in the United Kingdom and using one of the Sabres shown above is the 410th Squadron of the R.C.A.F., stationed at Luffenham airfield. Pictured here in front of one of the supersonic jets are left to right, FO. Art Raynor of Medicine Hat, Alta., Flt. Lt. Bill Gill of Toronto, FO. Pete Knox-Lest of Toronto and FO. Len Bentham of Windsor.

TENTS USED FOR CARGO IN AIRPORT EMERGENCY—A tent becomes a freight depot for non-scheduled cargo planes at New York's Idlewood Airport following the shutting down of Newark airport. The drastic measure, which followed the third major disaster in Elizabeth, N.J., made air traffic at Idlewood unusually heavy. Having no terminal at which to load and unload the freight, the desperate airfield officials began putting up several large tents.—Central Press Canadian.

NEW COMMANDER OF KOREAN FORCE—Brig. M. P. "Pat" Bogert will trade jobs on April 15 with the commander of Canada's Korean brigade, Brig. John M. Rockingham. Bogert, who commanded a brigade in Italy in World War II, is at present director-general of military training at army headquarters in Ottawa.—Central Press Canadian.

CAMERA CATCHES PAPER THIEVES—News vendor George Williams of New York was a trusting man—but that was years ago. He left his magazines and papers on a table in a New York railway station and trusted people to leave money for the papers they took. But, after losing \$600 a year on pilfered papers, he installed a camera above his stand—and photographed four wealthy looking individuals in the act of walking off with his wares. Here he points to the culprit-catching camera eye.—Central Press Canadian.

GOALIE RALPH HENCH, of Edmonton Mercuries sprawls in front of his net as he makes a save in an Olympic hockey match with the German team in Oslo, Norway. Attacking Germans are Xavier Unsinn, (left), and Marcus Egen, (centre). The Canadians won Olympic hockey championship.

ATOM BOMB AIMED AT CANCER—This innocent looking metal container is actually the focus of world attention. It's a lead shield holding radioactive cobalt from the U.S. atomic plant at Oak Ridge, Tenn., and is on its way to a cancer research institution at Los Angeles. This photo and others recently released by the U.S. Atom Energy Commission show the development of peacetime uses from atom research.

Follow-In On That Shot!

During the average game of hockey many scoring opportunities are lost because the player making the shot on goal, as well as his teammates who are in a position to do so, fail to follow the shot in. The tendency is for the players to assume the attitude of a spectator, in other words, they take a shot and then stop and watch to see what happens. This includes the defensive team as well who often just stand where they are watching the play rather than getting back quickly to pick up and clear a rebound or loose puck. So remember, following in quickly can often build up a scoring opportunity.

Another advantage that the offensive player has in such a case, is that if a defenseman is obligated to pick up the rebound, he has to make a turn before attempting to cover the play, whereas the offensive player can drive straight in wasting no time at all. A smart defense pair will have one man try to take out the man making the shot while the other defenseman turns to pick up the rebound. However, if the man making the shot keeps his head up and watches to see how the play is developing, he should be able to dodge the bodycheck and get in fast for a possible rebound.

Often a team that has been trained to follow-in quickly will get one or two men into the goal scoring zone, free from their checks long enough to bang that puck home.

A good idea is to organize a "follow-in" play. Here's the idea! Have the forwards follow in quickly after the puck has been shot or flipped in slowly. If the offensive players approach the defense at about three quarter speed and then burst into full speed as the shot is made, the play has a greater chance of being successful. Actually the best plan is for the shooter and one of the forwards to follow in quickly for the rebound with the other forward acting as a trailer. If three or four players tear in and the defending team recover the rebound, chances are they'll all be caught and the defending team will have an excellent breakaway.

Incidentally, the coach should instruct the player making the shot at the goal to always shoot low as the odds are much greater on a rebound coming out from a low shot. Remember a goalkeeper can catch a high shot so keep that shot no more than six inches off the ice.

Another good plan is to watch the goalkeeper's clearing habits so that you will know what spot to head for when following-in.

Above all, practice these plays over and over again because they involve skills that can only be learned by well organized practice—you have to get into the habit of making the right move.

Athletes Must Be Lean

In order to operate at peak efficiency an athlete must be lean.

The overweight player is usually the one who really goes for sweets, fried fatty foods, and drinks large quantities of whole milk.

To reduce, cut down on the candy and fried stuff and drink skim milk instead of whole milk.

Don't use artificial means of reducing. Consult your doctor.

Kitchen Meditations

LITTLE THINGS IN EVERYDAY LIFE

I thought today I would sing a song of things which gladden the weary road;
The little things, unexpected things—
They bring a smile and lighten the load.

I know each day there is something sure to happen to me if I look about—

A wave of a hand; a friendly smile,
And a swift "Hi There" as I hurry out.

I see the sun in splendor set
Beyond the trees, and its rosy glow
Gives promise of a fair new day,
Though the world's bound with ice and snow.

I see the smoke from chimneys rise;
And lights from windows, one by one.
The hush of evening fills the world
Of little homes when day is done.

I sing a song of peace and joy
Found in the commonplace of days;
Of beauty, which like threads of gold,
Relieves the drabness of simple ways.

Histology is the science or study of the tissues. 2975

World Happenings Briefly Told

Hitler's tea house on the Kehlstein mountain near Berchtesgaden, Austria, is to be turned into a restaurant by the German Alpine Tourist Association, city officials said.

Permission has been granted for construction of London's first skyscraper hotel, expected to be open by 1954. The 14-storey structure will have 650 rooms, all with bath.

The Royal Navy submarine Satyr was handed over to the French navy. She is the last of four subs on loan to France for four years. Others are the Statesman, Spiteful and Sportsman.

Canada is joining in a three-way arrangement with the United States and Britain to build, equip and man squadrons of F-86 Sabre jet fighters for the North Atlantic Treaty defence force.

Queen Elizabeth II has appointed Sir Alan Lascelles to be her private secretary, it was learned. He served the late king in the same post since 1943.

A husbands' union has been formed in Columbia, S.C. Husbands' Union, Inc., was granted a charter with the announced purpose of promoting fellowship and good will among husbands.

Queen Elizabeth's face will not appear on Canadian coins and banknotes for at least a year, officials said. However, postage stamps bearing the portrait of the new queen are likely to be issued in late summer.

Port Of Churchill Handled 228,797 Tons Of Cargo, 1951

OTTAWA.—The port of Churchill, Man., handled 228,797 tons of cargo in 1951, a statement of the national harbors board said. This was an increase of 20,000 tons from 1950.

The Hudson Bay port saw 34 vessels with a tonnage of 93,645 tons arrive during its brief shipping season.

During the year, Churchill handled a record 7,273,443 bushels of wheat, an increase of 500,000 bushels from 1950.

SOMETHING FOR EVERYBODY

Here's how one editor put it recently when typographical gremlins put mistakes in his paper. Tongue-in-cheek, he told his readers: "In case you find a mistake, please consider that it was put there for somebody's benefit. We try to get something in the paper for everybody, and some of our readers are always looking for mistakes."

Phra Paramindr Maha Chulalongkorn, king of Siam from 1868 to 1910, introduced many reforms, including the abolition of slavery.

Weekly Tip

NOT LUMPY

If the flour and sugar for a pudding are mixed together well before the milk is added the flour will not be lumpy.

ODDITIES In The News

Tarry P. Doyle, of Quincy, Ill., was filling out a questionnaire for the Veterans Administration and discovered he had forgotten something. So he wrote to the Pittsburgh marriage license bureau: "I was married in Pittsburgh in December, 1922. I don't like to admit it, but I have forgotten the name of the woman I married. Will you kindly send the name to me." The bureau did.

Lloyd Perry probably is the "best" best man in Nebraska's capital city. A deputy clerk of Lancaster County court, he has been best man at an average of two weddings a week for the past five years.

Thieves who tied up Charles Westwood, night watchman at a metal company at Stanmore, England, gave him coffee before leaving with loot that included £1,200 worth of gun-metal.

When tenants complained that 12 cockerels in an Enfield, Eng., garden crowed at all hours of the night, the chairman of the Middlesex court asked what happened to the fowl. The owner said "they've all been eaten". Case dismissed.

Leo C. Wurtzburger of Memphis, Tenn., said he observed the latest in female fashions—a woman wearing a mink coat while fishing.

THRILLS of the ROARIN' GAME

(From The International Curling Magazine)

In the dramatic final stage of the championship draw when spectators hold their breath, bar tenders desert their posts and old curlers watch with knowing eyes—a hush descends upon the competing rinks—moving like two single units in an ancient arena.

Such a competition lingers long in the mind. It is of the stuff champion teams are made. One wins, one loses but both have achieved high degrees of perfection; perfection in co-ordination, teamwork—which is the secret of the Roarin' Game. The true championship team, and there have been many, moves in the harmony and co-ordination of a symphony orchestra under the leadership of a genius-conductor. Each member executes his greatest skill, a skill always governed by the single effort of perfection. On such a team each member must be a champion but yet the quartet is a unit champion.

The curling team is like the old adage of the chain with its weakest link. A team is as strong as its weakest member, not its strongest. No skip or clean-up man can solo his team to victory—a possibility in some sports.

Most curlers are aware of this of course. Yet the general opinion of curling authorities is that not sufficient attention is paid by curling clubs, match committees and skips to this secret of team skill; not enough attention is aimed at the individual team members, their characteristics, temperaments and abilities for their team positions. It is for each curling club, match committee and skip to develop the latent skill of each individual player—just as the orchestra conductor exacts the best from each member's instruments.

Of course there are always obstacles, not the least being the strong demand among the members of clubs to become skips, even if they are not qualified. Too many want to be the captain—forgetting, perhaps, that it is much better to be a lead on a star team than a skip on a third-rater. The attitude is a hang-over from the old days when the skip was the

autocrat and considered the dominant figure of the entire rink. Local publicity still keeps the fallacy living, with too much attention in the press to the skip of the winning rink. But rinks holding championships or those near the top know the true secret. If they didn't, they wouldn't be champions.

Skill and ability required from each player is now so important as to demand that the player must be equal or better than the skip of a team. There have been champion teams whose players are more skillful than their own skips. And this trend is becoming general among the top notch rinks.

In one or two instances in recent years, the vice-skip or third, and not the skip, has been mainly responsible for the winning of the Canadian Championship. There have been two Canadian champions who only won their laurels through their ability to select a proper "clean-up man" as third player, who had the ability to keep the rings opened, thus enabling the skip to make his accurate draws of which he was a past master.

Old Skip Cliff Manahan of Edmonton and Ken Watson of Winnipeg were two who knew this secret, if secret it can still be called. They knew that the best performance in each team position was what counted. As skips they aimed their teams towards this. Both knew how to assess a player's ability for team position.

Manahan won the Canadian Championship twice and at each time he picked his vice-skip on the basis of a good "clean-up" man who could throw accurate shots to open up or clean out the "house", then "draw-master" Manahan could draw a shot to the fraction and win the game.

Ken Watson has always been known as a "draw-master" and has pulled out of the "fire" and won many a game by his ability to make the necessary draw or to freeze the opponent's rock, but he, like Manahan, knew the value of a good "clean-up" man. His brother, Grant, possibly is the greatest third man in the history of curling in Canada.

And that is the secret of the champion team—meaning that all four are equals and they should all share the victory just as they won it—as one.

Sixty Years Of Success For Salada

Yes, this year marks the sixtieth anniversary and, believe it or not, the writer has used Salada Tea ever since it was first packed in lead!

To show how times change, though, the idea of putting up individual tea bags only started in 1930 and consisted of guaze sewn into a bag with a string and label attached then the tea measured in and final seam sewn.

Then fast little sewing machines were invented—the "bag" coming off a long strip roll of guaze was automatically made into a bag—automatically filled at great speed.

Today with hundreds of millions Salada Tea Bags sold yearly these expensive operations have been improved and time saved by using a parchment paper that allows the tea to steep yet can be heat-sealed, which is a very fast method and one that save the customer money besides guaranteeing the Salada sealed-in flavour. Over a quarter of all tea in Canada is now sold in tea bags. Two main ideas have been the cornerstone of Salada success—to give the finest teas procurable—and to tell everyone, through advertising, of that fact.

Just as we write this we are told of the latest development—a new building in the Town of Mount Royal (back of the mountain in Montreal) which will be the most modern—or one of the most—tea buildings in the world with the whole process of blending, packing and shipping carried out on one floor of 125,000 square feet.

Our congratulations to everybody at Salada—may they carry on with the same ideas of quality and service for many another anniversary. —P.K.

TRY AND STOP ME!

By BENNETT CERF

Sign plastered on a shoe store window in darkest Brooklyn: "This is the shop that always remembers that dogs are a man's best friends."

The best way to read a whodunit, avers Miss Maureen Duschene, of Biloxi, is to begin it plumb in the middle. "Doubles the suspense," she explains. "You have to dope out not only how it's going to end, but how it began."

Helpful Hints

To remove brown stains from white ranges, dip a cloth into turpentine and apply to the stains. With a little pressure the stains will come off.

Paraffin that is too hot will have a tendency to separate from the jelly glass. Heat slowly and carefully and do not let it reach the smoking stage.

To soften old putty place in boiling water and allow to stand in it until the water cools.

If a milk pudding becomes burnt, remove the burnt skin, add some milk and a little butter, and rebake in a slow oven.

SMILE OF THE WEEK

"Why did you split up with Phoebe?"
"She's a union gal."
"So what?"
"She's not satisfied to have a good time. She wants a time-and-a-half!"

CANADIAN FASHIONS

Panels of shirring form a front on Beatrice Pines' sleek swimsuit with a horizontal panel across the strapless front. A cluster of self-flowers provides a provocatively feminine touch.

To Construct New Rail Line In B.C.

VANCOUVER. — An Aluminum company of Canada official said construction of a railway line into Kitimat, B.C., will be a "splendid thing" for the whole region.

McNeely Dubose, vice-president of the company, was commenting on an Ottawa report that the federal government will ask parliament this year to finance a railway line into Kitimat, where a big Alcan hydro development will produce aluminum.

: Selected Recipes :

Pork chops combined with your own canned corn, and enriched with milk and a couple of eggs, is tasty, filling and easy to make for Saturday night's supper.

Pork Chops de Luxe

One half tsp. salt, 2 cups canned fresh cut corn, ¼ cup minced green pepper, ¼ cup coarse cracker crumbs, 2 tbsp. butter, 2 eggs, beaten, ½ cup milk, 6 end cut pork chops.

Mix together corn, salt, and green pepper. Place a layer of the corn mixture in a greased baking dish.

Sprinkle with half the cracker crumbs and dot with half the butter. Top with another layer of the corn mixture and sprinkle with remaining cracker crumbs, then dot with butter. Mix eggs and milk and pour over the corn mixture. Season pork chops with salt and pepper and arrange on top of 10" casserole and bake in a 325 degrees F. oven for 45 minutes.

VIRGIL

GARDEN NOTES

From Now Until June

Best Time For Pruning

Shrubby and Trees

Get These in First

Shrubby, vines, roses, trees and other nursery stock should be planted as early as possible. This is especially true where the climate is dry and extra watering is difficult. The main thing is to make sure that the roots of the new stock are kept moist in transit and planting. All these things should be planted in a good-sized hole, the roots spread out loosely, then covered with fine, rich soil, pressed down firmly to exclude all air. Water liberally for a week or two.

Good nursery stock is soft and pliable and well supplied with good live buds. The latter, however, should not be far advanced. The nearer a plant gets to leaving out the more difficult the transplanting. If there is any secret about the business it is being sure that new stock is not allowed to dry out either in transit or after planting out in permanent quarters.

They Are Harder Now

Just because one couldn't grow melons or corn ten years ago doesn't mean that one cannot grow these things today. On the market now are far harder varieties. Perhaps harder is not quite the word as no melon vine will stand any serious frost and corn does not appreciate it either. What the plant breeders have done, however, is to give us corn, melons and a host of other types that mature days and sometimes weeks ahead of the old kinds. They also give us faster-growing types. These two factors mean that these new kinds can be grown farther north where the season is short.

And there are other ways of beat-

ing nature or our short Canadian growing season. One can start seed in a hotbed or window box and have plants well-grown and ready for outside just about the time it would be safe to sow seed. This means transplanting, of course, but for a few early things almost any vegetable and flower can be transplanted. Then there are some other tricks like putting little paper cups or even flower pots over hills of tender melons, squash, cucumbers and tomato plants and keeping them thus protected until danger of frost is over.

Timely Tips

Anytime from now until June is the best time for pruning most shrubby and trees. A good general rule to remember is that early blooming shrubs like Forsythia and Spirea should be pruned after blooming, later blossoming ones before or first thing in the spring.

If one can walk through the garden without getting ones shoes really muddy or if when one squeezes a handful of soil it crumbles rather than packs into a hard ball, then the ground is fit to cultivate and plant. If it is wetter than this it is too soon.

Too much emphasis cannot be laid on suitable seed. Suitable seed is more than just pure, high quality, graded seed. It is seed of varieties especially selected and for Canadian conditions. In vegetables it also means that the variety has been approved and tested officially for Canada.

Patterns

Pinny Or Sundress

by Alice Brooks

ISN'T SHE DARLING in her beautiful pinafore? Lamba peekin' out of pockets, and over that big eyelet ruffle. Easy to make, sweet as a bonbon in pastel and white.

ANSWERS TO QUICK QUIZ

ANSWERS: 5. Lumber takes about 28 per cent. of the wood used in a year; fire, insects and disease about 24 per cent.; pulp and paper about 22 per cent.; fuelwood about 21 per cent. 3. The provincial governments. 1. Two and a half million. 4. \$11,441 million. 2. The St. Lawrence River. (Material supplied by the Editors of Quick Canadian Facts, the handbook of facts about Canada.)

IMPORTANT MINERAL

Sulphur is used in the production of nearly everything we eat, wear or use.

OUR COMPLETE SHORT STORY—

THAT LAST LOOK

By ROY V. PRICE

"I'll Face 'im, Man to Man. If He Raises His Gun, I'll Shoot. That's a Man's Way of Doing Things."

TERRIFYING fear swept through her as Grace stood looking out the door down the rough path toward the swamp. "But, Ben, he's comin'!" Her voice was scarcely above a whisper.

"Doggone the skunk!" Ben snapped. "I'll show 'im who's the coward!"

Grace's eyes were glued on the double-barrelled shotgun across her husband's knees on the back step of their little log farmhouse. She shivered more when she thought about the poor shot Ben was on account of his eyes.

"For short range o' Bess is better. Poses is scouring every foot of the section with bloodhounds. They'll git 'im, shore!"

"I knowed somethin' like this was

bound to happen! That's what made me beg you so not to tell the sheriff about 'im," she said.

"Logic will prove I done the only right thing a decent, honest man could do!"

Running his trap lines, Ben had come upon Elmer Rake and another man burying something in the swamp. Ben had heard their plans for robbing the bank. The sheriff had caught the two in the act . . . had recovered the loot from other robberies.

"Even the pen couldn't hold his likes," Grace moaned.

"It did for more'n six years until he shot his way out," Ben shot another glance at the swamp. "An' a stiffer term'll be waiting for the skunk."

"Jist 'cause he called you a 'sneakin' coward' an' said he'd 'git you' is no reason for you to stand out in the open and be shot down."

"I'll face 'im, man to man. If he raises his gun, I'll shoot. That's a man's way of doing things."

Before Grace could reply, her face turned white. She saw a figure oozing out of the twilight realm of the swamp . . . nearer . . . nearer . . . Forcing back a scream, she watched the bedraggled Rake standing a few yards from Ben.

Holding his shotgun with trigger readiness, Rake snarled, "You won't rat on nobody else, you sneaking coward!"

"Git off my place!" Suddenly, Rake lost his sneer, stiffened.

The eternity of each second squeezed at Grace's throat as she watched from within.

Rake cast a wild, despairing stare at Ben, then lowered his gun and stepped back.

The quiet was broken by the roaring of a pack of bloodhounds . . . voices of men behind them . . .

Grace stepped to the door. Rake was in full flight, headed toward the swamp. Suddenly he stopped, raised his hands . . . Three men stepped from behind trees . . .

Ben's voice, "Ya see, honey, a man's gotta stand 'n' fight!"

Grace knew he would never guess why Rake had backed down; because he had looked into the cabin, over Ben's shoulder, and stared into the muzzle of her rifle.

Per capita coffee consumption in the 1935-39 period was 14 pounds but rose to 18.6 pounds in 1949.

—Central Press Canadian.

YOUNG DUKE MARCHED AT ROYAL FUNERAL — Sixteen-year-old Duke of Kent, (above), son of the late Duke of Kent, who was killed in an air crash during the last war, walked with the Duke of Edinburgh, and two of his uncles, Duke of Gloucester and Duke of Windsor, in the funeral procession of his uncle, King George VI.

MANITOBA SUGAR BEET GROWERS TO GET SAME PRICE

WINNIPEG. — Manitoba's sugar beet growers will receive between \$14 and \$15 a ton for their crops this year, the same as in previous years.

Manitoba growers, who produced 178,000 tons of beets in 1951, have accepted a contract similar to last year's. They will be paid a set price and a bonus for additional tonnage.

An official of the Manitoba Sugar Company, the only processing plant in the province, said he doubted a report that Ontario beet growers would receive more than \$16 a ton for their crops.

The official said the price of beets is correlated with the price of sugar and sugar had dropped in the last few months.

MARRIAGES, BIRTHS, DEATHS

OTTAWA.—Marriages, births and deaths all increased in Canada in the first 11 months in 1951. The bureau of statistics reports marriages totalled 117,065 against 113,383 in the same period of 1950, births totalled 337,152 against 326,594 and deaths 111,892 against 110,224.

by Anne Adams

It tops everything! In denim or print cotton, it's an apron or smock. In a rayon fabric it's an over-blouse or jerkin; and make it in terrycloth as a beachcoat. It's a wonderful idea. So easy to make—no waist seams—just tie to fit.

Pattern 4784 in misses sizes small 10, 12; medium 14, 16; large 18, 20. Medium size requires 2½ yards 35-inch fabric.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept., Winnipeg Newspaper Union, 60 Front Street W., Toronto.

Western Briefs

Triple Calves Thriving

PRINCE ALBERT, Sask.—Triplet Shorthorn heifers born to a two-year-old Shorthorn Feb. 15, were reported still thriving on the district farm of Paul Laboret. They average 45 pounds each.

Mink of Excellent Quality

CHURCHILL, Man. — Mink from this district are considered of such excellent quality that they are being taken to the provincial experimental fur farm at Fort Garry, Man., for use as breeding stock.

Cured His Insomnia

VICTORIA, B.C. — Frank Fischer, 22, a new Canadian from Germany, said his donations to the Red Cross blood bank have cured his insomnia. Fischer was told that regulations stipulate only one donation each six months when he tried to contribute a second time within a month.

Alberta Liquor Profit

EDMONTON.—Alberta made a net profit of \$12,195,142 on liquor and beer in the fiscal year ended last March 31, it was reported in the provincial legislature. The annual report of the Alberta liquor control board also showed that the province's brewers paid the federal government \$12,530,000 in excise taxes and other duties during the year.

Legalize Slot Machines

EDMONTON. — The Alberta government acted to legalize the use of slot machines that are not considered gambling devices. A bill amending the slot machine act will legalize machines dispensing goods or services, including amusement or tests of skill or strength.

"Frogman" From Trinidad

CALGARY. — A "frogman" who was awarded the D.S.C. for finding and destroying underwater obstacles off Normandy and Walcheren in the Second World War has arrived from Trinidad to search underground for Alberta oil.

Ban To Stay

WINNIPEG.—A private member's bill to lift the ban on the coloring of margarine by Manitoba manufacturers, was defeated 32-22 on second reading in the Manitoba legislature.

Exhibits 200 Paintings

WINNIPEG.—Rev. Hugh Robertson, retired Winnipeg clergyman who hadn't touched a paint brush until he was 64, exhibited 200 of his paintings here on his 84th birthday recently. He has given many others away.

Older Men, Women More Stable

VANCOUVER.—A preliminary report by city personnel director B. H. Peterson showed Vancouver has hired three persons over the age of 40 since city council opened age limits for civic employment. He believes older men and women will be more stable in certain jobs.

Do You Know That . . .

The Niagara Falls once stopped falling. Back in the month of March, 1848, an ice jam above the Falls held back the water for several hours. This is the only time such a thing has been recorded.

Help The + Red Cross

"SALADA" TEA

Finer, tastier BREAD

Yours, with wonderful fast-rising DRY Yeast!

You're sure of tempting, delicious bread when you bake with Fleischmann's Fast Rising Dry Yeast! This wonderful new yeast keeps its full-strength and fast-acting qualities without refrigeration! Buy a month's supply!

WHOLE WHEAT BREAD

● Combine 3 c. boiling water, ¼ c. granulated sugar, 4 tps. salt and 1 tbs. shortening; stir until sugar and salt are dissolved and shortening melted; cool to lukewarm. Meanwhile, measure into a large bowl 1 c. lukewarm water, 1 tbs. granulated sugar; stir until sugar is dissolved. Sprinkle with 3 envelopes Fleischmann's Fast Rising Dry Yeast. Let stand 10 minutes, THEN stir well.

Stir in cooled sugar-shortening mixture. Combine 5 c. once-sifted bread flour and 5 c. whole wheat or graham flour. Stir about half of the flours into yeast mixture; beat until smooth. Work in remaining flours and add additional bread flour, if necessary, to

make a soft dough. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and set in a warm place, free from draught. Let rise until doubled in bulk. Punch down dough, grease top and again let rise until doubled in bulk. Punch down dough; turn out on lightly-floured board and divide into 4 equal portions; form into smooth balls. Cover lightly with cloth and let rest for 15 mins. Shape into loaves; place in greased loaf pans (4½" x 8½"). Grease tops, cover and let rise until doubled in bulk. Bake in hot oven, 400°, for 20 mins., then reduce oven heat to moderate, 350°, and bake about 20 minutes longer.

Itch... Itch... Itch

I Was Nearly Crazy

Kneehill M.D. Meeting

The Council of the Municipal District of Kneehill held a regular meeting March 10th with all seven members of the council in attendance. Financial report for February presented showed a net balance of \$55,864.68 on Feb. 29th. The reeve and Secretary-Treasurer were authorized to borrow \$30,000.00 from the Royal Bank and \$30,000.00 from the Treasury Branch to meet current expenses and school and hospital requisitions of approximately \$86,000.00 on March 15th. Offer of Paul and Clarence Elvin to purchase No. 30-32-21-4 for \$400.00 was accepted, subject to approval of Minister of Municipal Affairs. Agricultural Service Board personnel were appointed as follows: Mr. Matt Schmalz, Chairman; Mr. G.G. King, Secretary; Mr. F.C. Petersen, Mr. Phil Rock, Jr. and Mr. Aubrey Hogg, Members; Mr. N.E. Bell, G.L. member, and Mr. Backman, Field Supervisor. Robertson, Anderson and Co., Red Deer were appointed as auditors. Mr. C.J. Christie was paid a holiday bonus of \$129.60 for 1951. Office staff salaries for 1952 were set at: A.J. Purvis \$3000; C.J. Christie and G.G. King \$3500. Next meeting of the Council will be held April 3rd, 1952.

NOTICE

A recent amendment to the Prairie Farm Assistance Act provides that:

"An owner or tenant is not a farmer for the purposes of the Act, where he rents his land from one of his parents otherwise than under a written lease executed before the first day of May of the year of the award, if he has received a previous award for lands rented from one of his parents, and has received notice before such first day of May that to be eligible for an award he is required to rent the lands under a written lease."

This regulation shall be strictly enforced. Where a lease has expired lease must be renewed. Neither an overholding lease nor an expired lease are acceptable under the above regulation. Municipal District of Kneehill No. 48

A.J. Purvis Secretary-Treasurer, Three Hills, Alta.

WORKING WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1817

Guardians of Peace!..

The infantry machine gunners

The Canadian Infantry Soldier is a vital part of our expanding defence forces. In Korea he has built a wonderful reputation for his courage and ability. Wherever he goes, the Canadian Soldier has a way of winning friends — of impressing both friend and foe with his outstanding training and soldierly qualities.

The Infantry Machine Gunners are an integral part of the Canadian infantry regiments. With their heavy and accurate fire power, the Infantry Machine Gunners have time and again in Korea proved how extremely important they are in attack and defence.

Play your part in Canada's most important business today, defence. You are eligible if you are: 17 to 40 years of age, (tradesmen to 45), physically fit and ready to serve anywhere.
